September 2021 – Brittany and Jeremy Eagleman

Dear friends, family, supporters, and prayer warriors,

We tried to soak up every minute with family while we were in the States. We spent our time in Kansas, Tennessee, South Carolina, and Nebraska. We now have so many wonderful memories as well as we had been very busy with doctor appointments, processing documents, and travels. Jeremy had knee surgery mid-August for a torn meniscus, and we had also been taking care of our new addition, Andrew Ellis Eagleman, who was born July 6 at 9 lbs. 3 oz. Asher has been a great big brother! He loved going to the pool, playing dinosaurs, and snuggling with his baby brother.

We worked quickly after Andrew was born to send in his passport because we had heard there were delays in passport services. However, in a mere five weeks, we got Andrew's passport and are already back in Liberia. Asher was so excited when we told him that we were going back to his home in Liberia. He went around telling everyone the news. He is excited to see his friends and play with his toys.

Please pray for the transition back into ministry as a family of four. We really looked forward to being home, Asher starting preschool, and introducing Andrew to all of our Liberian friends, which we have made a great start on. We will have lots of pictures and ministry updates that we will love sharing with you soon.

Again, we appreciate your prayers and support,

Jeremy + Brittany
